

# Donations and volunteerism

To help to fulfill our company's mission, Microsoft Philanthropies is committed to advancing a more inclusive and equitable world. As part of this commitment, the company donates and discounts productivity, platform, and cloud technology to empower nonprofits around the world to achieve their missions with greater insight, efficiency, and agility.

In addition, Microsoft provides cash grants to nonprofit organizations that equip people from underserved communities with the digital skills needed to thrive in today's increasingly digital economy. And, through the Microsoft Employee Giving program, our employees generously donate their time, talent, and money to the nonprofit organizations of their choice, with matching funds provided by the company.

Highlights in fiscal year 2021 include:

**\$2.5B**

in donated and discounted technology provided to 295K nonprofits

**\$297M**

in cash grants to nonprofit organizations worldwide

**\$214M**

donated by employees to nonprofits (with Microsoft match)

**590,608**

hours volunteered by 22,191 US employees

Investments over the past three fiscal years include:
